

Principal Cloud Architect

Casablanca, Morocco | 7.5 Years of Experience

SUMMARY

Enterprise Cloud Architect with over 7 years of experience designing, migrating, and optimizing complex, highly available cloud infrastructures. Expert in multi-cloud strategies (AWS and Azure), Infrastructure as Code (IaC), microservices orchestration, and designing cost-efficient, zero-trust cloud topologies for large-scale enterprise systems.

PROFESSIONAL EXPERIENCE

Lead Cloud Solutions Architect — Global Cloud Technologies

March 2021 – Present (5 years 3 months)

- Architected and supervised the migration of legacy on-premise infrastructure to a hybrid multi-cloud environment leveraging AWS and Azure, reducing operational overhead by 35%.
- Designed end-to-end containerized orchestration frameworks using Kubernetes and Docker for high-throughput financial applications.
- Implemented automated Infrastructure as Code (IaC) pipelines using Terraform, managing complex deployments via enterprise Git repositories.
- Developed cloud-native automation scripts and serverless backends using Python.
- Established cloud governance structures, monitoring compliance, and managing multi-million dollar cloud budgets.

Senior Cloud Infrastructure Engineer — Apex Systems

November 2018 – February 2021 (2 years 4 months)

- Configured, secured, and maintained production environments on AWS handling over 100,000 daily active users.
- Built continuous integration and deployment (CI/CD) workflows to automate software releases.
- Optimized relational database clustering (SQL) to ensure maximum availability and fault tolerance.

SKILLS

- Cloud Platforms: AWS (Advanced Networking, Security), Azure (Enterprise Architecture).
- DevOps & IaC: Terraform, Kubernetes, Docker, CI/CD Pipelines.
- Automation & Data: Python, Bash, SQL, Enterprise Architecture Patterns, Git.
- Certifications: AWS Certified Solutions Architect – Professional, Microsoft Certified: Azure Solutions Architect Expert.

EDUCATION

- Master of Science in Distributed Systems — ENSIAS (2018)
