

Mobile Application Developer (iOS & Android)

Rabat, Morocco | 3 Years of Experience

SUMMARY

Dynamic Mobile Developer with 3 years of professional experience specializing in cross-platform mobile development. Proficient in building high-performance, user-friendly applications from concept to deployment on the App Store and Google Play. Strong background in integrating REST APIs and managing local storage.

PROFESSIONAL EXPERIENCE

Mobile App Developer — AppStream Solutions

February 2023 – Present (3 years 4 months)

- Led the development of a cross-platform mobile e-commerce app using Flutter and JavaScript (React Native), resulting in a 40% increase in mobile traffic.
- Integrated backend services and real-time database updates using Node.js and SQL.
- Managed app state management and version control using Git to collaborate with a team of 5 developers.
- Wrote automated unit tests and UI tests to ensure 99% crash-free sessions.
- Utilized Python scripts to automate the app submission and metadata update process.

Junior Mobile Developer — StartupX

July 2022 – January 2023 (7 months)

- Developed UI components for an Android fitness tracker application using Kotlin.
- Optimized application performance and reduced battery consumption by 15% through code refactoring.
- Collaborated on the implementation of push notification services via Azure Notification Hubs.

SKILLS

- Mobile Platforms: Flutter (Dart), React Native (JavaScript), Android (Kotlin/Java), iOS (Swift).
- Web & Backend: Node.js, Python, RESTful APIs, SQL.
- Tools: Git, Docker (for dev environments), Firebase, Azure.

EDUCATION

- Bachelor's Degree in Software Engineering — UM6P (2022)

 CV 2: Rejected (< 60% Similarity Match)

Liam PARKER

Backend Developer / Database Administrator

Manchester, UK | 1 Year of Experience

SUMMARY

Junior Backend Developer focused on server-side logic, database management, and API design. Experienced in maintaining secure server environments and optimizing database architectures for high-load applications.

PROFESSIONAL EXPERIENCE

Junior Backend Developer — DataNode Systems

August 2025 – Present (1 year)

- **Maintained and optimized complex SQL databases for enterprise-level reporting systems.**
- **Built and documented RESTful APIs using Python (Django) and Node.js.**
- **Containerized legacy backend services using Docker for streamlined deployment.**
- **Managed code versions and CI/CD triggers using Git and Bitbucket.**

SKILLS
