

Karim BENALIA

Full Stack JavaScript / Python Developer

Paris, France | 2.5 Years of Experience

SUMMARY

Results-driven Full Stack Developer with over 2 years of experience building scalable, high-performance web applications in agile environments. Proficient in creating dynamic frontend interfaces with React and developing robust, efficient backend services using Node.js and Python.

PROFESSIONAL EXPERIENCE

Full Stack Developer — TechSolutions SAS

January 2024 – Present (1 year 5 months)

- Designed and developed a core SaaS platform for internal operations utilizing **React** and **Node.js**.
- Optimized **SQL** (PostgreSQL) database queries, reducing page load times by 30%.
- Wrote automated scripts and scalable backend microservices using **Python**.
- Utilized **Git** daily for version control and actively participated in peer code reviews.

Junior Web Developer — InnovDigital

November 2022 – December 2023 (1 year 2 months)

- Translated Figma mockups into highly reusable, responsive **React** components.
- Maintained, debugged, and expanded RESTful APIs written in **JavaScript**.
- Collaborated closely with product teams to implement new feature requirements.

SKILLS

- **Frontend:** JavaScript (ES6+), React, HTML5, CSS3, TailwindCSS.
- **Backend:** Node.js, Python (FastAPI), SQL (PostgreSQL, MySQL).
- **Tools & DevOps:** Git, Docker (Basic), AWS (Basic).

EDUCATION

- **Master's Degree in Computer Science** — Université Paris-Cité (2022)
