

Senior Cyber Security Engineer

Casablanca, Morocco | 5 Years of Experience

SUMMARY

Dedicated Cyber Security Professional with 5 years of experience protecting enterprise network infrastructures, managing vulnerabilities, and implementing robust incident response strategies. Proven track record in monitoring SIEM systems, securing cloud environments, and ensuring strict compliance with international security standards (ISO 27001, NIST).

PROFESSIONAL EXPERIENCE

Senior Cyber Security Specialist — SecureNet Technologies

March 2022 – Present (4 years 3 months)

- Led the incident response team to mitigate and investigate active security breaches and advanced persistent threats (APTs).
- Configured and managed corporate firewalls, IDS/IPS systems, and identity access management (IAM) structures.
- Conducted regular automated and manual vulnerability assessments using Nessus and Burp Suite.
- Integrated security automation scripts using Python to streamline alert monitoring workflows.
- Managed secure environments deployed on AWS and Azure, implementing zero-trust network architectures.

Cyber Security Analyst — InfraShield Corp

September 2021 – February 2022 (6 months)

- Monitored the Security Operations Center (SOC) ecosystem using SIEM tools to detect and analyze anomalous behaviors.
- Collaborated with infrastructure teams to patch critical server vulnerabilities and secure Linux/Windows environments.
- Maintained version-controlled documentation for security compliance audits using Git.

SKILLS

- Security Ops: SIEM (Splunk), Incident Response, Vulnerability Assessment, Penetration Testing.
- Network & Cloud: AWS Security, Azure Security, Firewalls, VPNs, Network Infrastructure.
- Tools & Scripting: Python, Bash, Git, Wireshark, Nessus.
- Certifications: CEH (Certified Ethical Hacker), CompTIA Security+.

EDUCATION

- Master's Degree in Information Security — École Nationale des Sciences Appliquées (2021)
